Play Pathfinder

The Play Pathfinder programme was a national initiative to provide quality inclusive play spaces for 8 - 13 year olds in areas where they naturally play and meet. The project in Bath & North East Somerset began in 2008 introducing a range of natural and exciting play features such as climbing towers, sand, boulders, landscaping, swings, zip wires and bike tracks. In some cases the local community were invited to take part in the carving of wooden play structures. Each of the sites have been designed to support ideas from children and young people living nearby. The following 32 sites have been developed since October 2008:
