

Your flats can now recycle **food waste**

We can now provide a food waste recycling collection for your flat. You should use this for all your food waste. Your rubbish bin should **not** be used for food waste any more.

Bath & North East
Somerset Council

Together we can
all **make a difference**

How to use your new food collection

1. Line your kitchen caddy with newspaper or a plastic bag – any everyday carrier bag including bags used to hold bread or vegetables is suitable (please do not use black bags and bags for life)
2. Put **all** your food waste into your caddy
3. Before it gets too full, either tie the plastic bag or wrap your food into a newspaper parcel (like fish and chips)
4. Drop it off in the communal food waste bin (near your recycling bins) on your way out

What can I put in my caddy?

You can put **any** raw or cooked food in your caddy, including the following:

Why is it important to recycle our food waste?

1. To increase recycling – about 1/3 of the rubbish we throw away is food
2. Food waste is recycled into electricity and fertiliser
3. Recycling food is cheaper than throwing it away

✓ Yes please

dairy

fish

fruit & vegetables

meat & bones

bread & pastries

tea & coffee grounds

food waste
