

# Bubble Pop

- Let me have some spontaneous play popping the bubbles.
- Now add some structure by asking me to pop them in different ways, eg with my little finger, with a clap or by stamping on them.
- Add challenge by seeing if I can pop one with my elbow or nose.

## Bubble Tennis

- Add challenge by seeing if I can blow the bubble back to you. Challenge me to see how many times we can blow the bubble before it pops.

*Bubbles can be a fun and engaging way to help me feel okay about following your instructions.*
