<b>Objective 1:</b> Improve the health and well-being of all communities	N/A	N/A	N/A	Not applicable to the purpose of this policy
<b>Objective 2:</b> Meet identified needs for sufficient, high quality and affordable housing	0	0	0	The amendments to the policy have a neutral effect on this objective.
<b>Objective 3:</b> Promote stronger more vibrant and cohesive communities and reduce anti-social behaviour, crime and the fear of crime	+	+	+	The policy enables the development of a significant quantum of office floorspace to plan for the growth in the knowledge intensive and creative employment sectors. The policy helps facilitate a sustainable balance between job creation, the concerns of communities and overall functioning, performance and environmental quality of the city and its setting.
<b>Objective 4:</b> Build a strong, competitive economy and enable local businesses to prosper	++/?	++/?	++/?	<p>The policy enables the development of a significant quantum of office floorspace to plan for the growth in the knowledge intensive and creative employment sectors. It allows for a contraction in industrial floorspace, yet recognises the importance of maintaining a mixed economy within the city and therefore retains industrial land in the Newbridge Riverside area.</p> <p>The net outcome figures for B1 office floorspace has not changed but a further 10,000 sqm gross will be needed to achieve it. Given that the Plan is planning not to accommodate the full assessed retail capacity, nor student accommodation or teaching space in the Central Area or River Corridor, there is some negative consequences for these uses. The negative consequence of finding an addition 10,000 of office space are assessed as greater in respect of the retail impact as it represent a more significant element for what is needed and is within the same 'sequentially preferable' spatial area. For Higher Education, it is a smaller effect, as much of the demand from this this sector can be met elsewhere.</p> <p>The decision to prioritise the delivery of office floorspace over retail has been made by the Council.</p> <p>The submitted Plan increased the requirement for the provision for hotel accommodation responding to the latest evidence. <b>Objective 5:</b> Ensure everyone has access to high quality and affordable public transport and promote cycling and walking	++	++	++	The policy deals with an area that is well served by public transport, and with increasing levels of walking and cycling. Reference is made to delivering the measures identified in the Council's Transport Strategy.
<b>Objective 6:</b> Protect and enhance local distinctiveness	0	0	0	The amendments to the policy have a neutral effect on this objective.
<b>Objective 7:</b> Protect and enhance the district's historic, environmental and cultural assets	0	0	0	The amendments to the policy have a neutral effect on this objective.

<p><b>SUMMARY:</b> The amendments to Policy B1 makes positive contributions to objective 5 making reference to the measures identified in the Council's Transport Strategy. The amendments make a positive effect on objective 4</p> <p>The policy enables the development of a significant quantum of office floorspace to plan for the growth in the knowledge intensive and creative employment sectors. It allows for a contraction in industrial floorspace, yet recognises the importance of maintaining a mixed economy within the city and therefore retains industrial land in the Newbridge Riverside area. Therefore a major effect on objective 4 'Build a strong, competitive economy and enable local businesses to prosper'. However an uncertainty effect is recorded on objective 4. By accommodating further B1 office floorspace, the policy does not facilitate to meet the full assessed retail capacity, nor student accommodation or teaching space in the Central Area or River Corridor. The decision to prioritise the delivery of office floorspace over retail has been made by the Council.</p> <p><b>Mitigation and enhancement</b> Progress of development in the Enterprise Area will be monitored and reviewed as part of the Plan review process. Progress of hotel development will be reviewed through the Plan review.</p>

<b>Objective 7:</b> Protect and enhance the district's historic, environmental and cultural assets	+	+	+	The amendments to the policy have a positive effect on this objective as they improve the connections to local centres and improve the environmental quality of the area.
<b>Objective 8:</b> Encourage and protect habitats and biodiversity and geodiversity (taking account of climate change)	+	+	+	The amendments to the policy have a positive effect on this objective as they improve biodiversity.  It includes measures to restore and enhance the biodiversity value of the river and the river edge, including the retention of a dark corridor for bats, and the riverside as a green setting and context for the area.
<b>Objective 9:</b> Reduce land, water, air, light, noise pollution	0	0	0	The amendments to the policy have a neutral effect on this objective.
<b>Objective 10:</b> Reduce vulnerability to, and manage flood risk (taking account of climate change)	0	0	0	The sequential approach to site layout is required to be informed by a site specific FRA. As a minimum, the floor levels of new developments have to be raised at the appropriate level taking into account the vulnerability classification informed by the FRA.
<b>Objective 11</b> Increase resilience to climate change	0	0	0	The sequential approach to site layout is required to be informed by a site specific FRA. As minimum, the floor levels of new developments have to be raised at the appropriate level taking into account the vulnerability classification informed by the FRA.  Other policies also apply to this area.
<b>Objective 12:</b> Encourage careful and efficient use of natural resources including energy and encourage sustainable construction	0	0	0	The amendments to the policy have a natural effect on this objective.

SA Objectives	Short term	Med term	Long term	Commentary
<b>Objective 1:</b> Improve the health and well-being of all communities	N/A	N/A	N/A	Not applicable to the purpose of this policy
<b>Objective 2:</b> Meet identified needs for sufficient, high quality and affordable housing	+/-	+/-	+/-	<p>The management of the higher education footprint within the city will enable sufficient land to be protected and developed for normal housing. The inclusion of teaching space as well as student accommodation enables the management of an additional source of conflict re achieving other objectives.</p> <p>The prioritisation of other housing types could result in shortages for students against the growth aspirations of universities (although the University of Bath could do much to correct this on-campus) and HMOs are still able to increase in certain places.</p> <p>The replacement of student HMO stock with normal housing will enable the retention of workers within the district. However, it is unlikely that replacement stock could be sourced on the edge of Bath itself.</p> <p>At the time of preparation of the Placemaking Plan, the Council received updated growth plans from both Universities. They are summarised in the separate Information Paper: Student Numbers and Accommodation requirements in Bath Update (May 2016). New private educational institutions e.g. language schools have also signalled a desire to increase their presence in the city. The revised growth aspirations of both universities and private colleges may result in additional pressures on the housing market.</p> <p><b>Mitigation and enhancement</b> The policy requires that between 2011 and full Plan review the number of C3 dwellings converted to C4 Houses in multiple occupation(exempt from Council tax) to be monitored and compensatory provision will be made if the achievement for 7,000 net additional dwellings for the city is at risk.</p> <p>The issues relating to the revised growth aspirations of the two universities should be considered as part of the future plan</p>

<b>Objective 4:</b> Build a strong, competitive economy and enable local businesses to prosper	+/?	+/?	+/?	<p>The management of the higher education footprint within the city will enable sufficient land to be protected and developed for various economic sectors. The inclusion of teaching space as well as student accommodation enables the management of an additional source of conflict re achieving other objectives.</p> <p>The universities themselves are not regarded as local businesses in themselves, but the policy approach could have a negative effect on the institutions growth potential, and this will have and gross economic impact. However, the net economic impact depends on what land is used for if not for the higher education sector.</p> <p>The replacement of student HMO stock with normal housing will enable the retention of workers within the district. However, it is unlikely that replacement stock could be sourced on the edge of Bath itself.</p>

<b>Summary</b>				
<p>The references to the University campuses in adopted Policy B5 were included prior to the Placemaking Plan preparation process, which has enabled site specific issue to be fully explored and policies set out. For the sake of the logical flow of the Development Plan and to avoid duplication and ambiguities, there is justification for removing campus references in CS Policy B5 taking into account Policy SB20. Policy B5 still sets out the quantum of development for the University of Bath that is anticipated to be delivered within the plan period.</p> <p>Also appraised is adjusted wording on the University related uses that are not to be prioritised in the Enterprise Area, City Centre and on MoD sites. Not only student accommodation has the potential to squeeze out other uses/objectives prioritised in these areas. Reference is therefore also proposed to be made to academic space as this reflects the full footprint of HE on the city. University B1(a) office space would not be included in this definition. This enhances the policies sustainability regarding SA Objectives 2 and 4. There may be some negative effect in relation to SA Objective 2.</p> <p>Finally, it is proposed that Policy B5 embeds within it the approach already set out in paragraph 1.26D of the Core Strategy (supporting text to CS Policy DW.1) re the need to compensate for normal houses that are</p>

Logically it fits within Policy B5. 				impact on this objective.
<b>Objective 2:</b> Meet identified needs for sufficient, high quality and affordable housing	+	+	+	<p>The policy change to require a primary school with sufficient capacity (or ability to expand) will help ensure the overall aim of the policy is achieved i.e. to allow residential development in the more sustainable settlements, and that sufficient, high quality and affordable housing is accommodated in sustainable locations.</p> <p>Main Modification (Jan 2017) achieves clarification in ensuring Policies RA1 and ED2B operate coherently and consistently. The Policy has a positive effect on facilitating residential development on previously developed sites in sustainable locations.</p>
<b>Objective 3:</b> Promote stronger more vibrant and cohesive communities and reduce anti-social behaviour, crime and the fear of crime	++	++	++	<p>It has emerged through the preparation of the Placemaking Plan and consideration of planning applications that some primary schools are at or reaching capacity. In some cases, such as at High Littleton, there is currently no scope for any physical expansion. This means that some villages, whilst meeting the RA1 criteria, may have primary schools which do not have the capacity to meet the pupil needs arising from even small-scale windfall developments. In these cases sites for residential development will not be allocated in the Placemaking Plan. This also has implications for the RA2 settlements which also rely on rural primary schools in the larger villages to accommodate the pupil needs arising from new housing development. The cumulative impact on nearby primary schools of allowing successive even small-scale windfall residential schemes also needs to be taken into account.</p> <p>By requiring a settlement to have a primary school with sufficient capacity (or ability to expand) will help to secure and maintain balanced and more self-contained communities and reduce the need to travel, accommodate the primary education needs of the existing population and those arising from a residential development proposal (as expected by Placemaking Plan Policy LCR3A).</p>
<b>Objective 4:</b> Build a strong, competitive economy and enable local businesses to prosper	0	0	0	<p>The policy allows efficient use of previously developed employment land. Applications for residential development or other uses will normally be approved unless there is a strong economic reason why this would be inappropriate.</p> <p>The policy has a neutral effect on this objective.</p>

<p><b>Summary</b></p> <p>The policy, by requiring a settlement to have a primary school with sufficient capacity (or ability to expand) will ensure the educational needs of the existing population and those arising from a residential development proposal in that settlement can be accommodated. This should result in a major positive impact on Objectives 1 (health and well-being) and 3 (stronger more vibrant and cohesive communities) and a minor positive impact on Objective 2 and 12 by helping ensure housing is accommodated in sustainable locations.</p> <p>Main Modification enables clarification in ensuring Policies RA2 and ED2B operate coherently and consistently. The Policy has a positive effect on facilitating residential development on previously developed sites in sustainable locations.</p>
