The ancient market town of Keynsham, situated between Bristol and Bath, is surrounded by beautiful countryside, and is sited at the confluence of the Rivers Avon and Chew. The Memorial Park, which is the start point of many of the walks, has won many awards, and is situated between the High St and the River Chew. It is very popular with families, Band Concerts are held there during the Summer, and the famous Keynsham Music Festival during the first week of July.

After our successful inaugural festival in 2016, we decided to continue with another this year on similar lines. The Keynsham Walkers are Welcome group, who have been in existence for 3 years, organise the event, spread over 2 days with 9 walks and a family finale in the park on Sunday afternoon. There are an assortment of walks, some themed, to suite all tastes and abilities, some where children and dogs are allowed. We sincerely hope you enjoy your time in our lovely town.
