

**Bath & North East
Somerset Council**

Directory of Supporting People Services in Bath and North East Somerset

**This directory contains information about
Supported & Sheltered Housing and related
services**

Helping people to live independently in the community

Introduction

Many people living in Bath and North East Somerset require care or support to enable them to live independently in their own homes.

For some people this may mean practical help with carrying out repairs to their homes. For others it may mean support within a Supported Housing scheme.

Housing-related support can include help with tasks such as:

- managing finances and benefits
- finding accommodation
- sustaining tenancies
- accessing other support services
- developing independent living skills
- establishing and maintaining contact with family, friends and organisations
- keeping a property safe and secure

Supporting People is the part of the Council which funds housing-related support. In Bath & North East Somerset this includes supported accommodation and various floating/visiting support services.

Many of the services can be accessed via the Housing Support Gateway - This is a web-based single access point where you can apply for a wide range of support services to help you to live independently, to remain in your own home or to avoid homelessness. For more information see www.housingsupportgatewaybathnes.org.uk

This booklet is a directory of all Supporting People services available in the Bath and North East Somerset area. They are listed according to the different service user groups who use them.

Using the Directory

The information in this booklet is arranged according to the needs of service users, into the following categories:

1. Older People's Services
2. Mental Health Services
3. Learning Difficulties Services
4. Young People's Services
5. Homelessness Services
6. Domestic Violence Services
7. Services for Offenders & Those at Risk of Offending
8. Services for People with a Physical or Sensory Disability
9. Drug and Alcohol Services

Services are run by various different Providers. Some Providers run a number of different Services.

For each provider, the directory shows:

- **Location** of the services.
- **Accommodation type** – where accommodation is part of the service (not all services are accommodation based).
- **Capacity** – the number of people/units which the service can serve.
- **Type of support provided** – such as whether it is accommodation based or floating support (where support workers visit people in their own homes).
- **Primary client group** – who the service is intended for.
- **Age group** – some services only accept certain age groups.
- **Household type** – whether service caters for single people or families.
- **Support duration** – how long the service is available to users for – whether it is short-term or long-term.
- **The referral route** – how to access the service.

The following Providers are listed in this booklet. Each offers a number of different Services.
