

Acoustic Panel Installation in the Percy Community Centre Sports Hall

Organisation:

Percy Community Centre (Charity no. 1127986)

Funding Requested:

£9,795.51 from the Bath Neighbourhood Portion of CIL

(No matched funding secured)

Project Description:

The project proposes installing acoustic ceiling panels in the Sports Hall at Percy Community Centre to address poor sound quality. The hall, with a capacity of 250, is currently underused due to echo and poor acoustics, making it unsuitable for meetings, music events, and conversations.

The installation of sound-absorbing ceiling rafts will make the space more attractive and versatile for:

Community meetings

Receptions and celebrations

Musical and spoken word events

Key Outcomes:

Improved sound quality and usability of the largest room at the centre

Increased bookings and community engagement

Enhanced infrastructure to meet growing demand for affordable venue hire
