Bath & North East Somerset Council

Improving People's Lives

Medical Permits and Social Care Permits

1. **Apply online**
   Apply and buy your permit online at www.wanttopark.com/bathnes.
2. **Park your vehicle**
   On street in a Residents Bay or dual use Residents/Pay and Display within a Resident Parking Zone.
3. **Activate your parking using the location number online, smartphone app, telephone or by text**
   The MiPermit App provides a 'live' view of your parking stay. You **must** only use residents permit bays. You must use the 2 hours duration and no other durations are available.

How to activate your parking

Mobile app - The easiest way to activate your parking is by using the online app, available from the Google or Apple app stores. Login using your registered email address and PIN to find your location and activate your parking.

Online – login to the portal using registered work email address and PIN, go to the Trade Parking page and select your vehicle and location required. Save and confirm your selection to finish.

By telephone – Call 0333 123 8008 from your mobile number (if registered). This will connect you to the MiPermit team, who will ask for your location number, your vehicle registration and the duration required.

If you call from a different phone or have not registered a mobile number they will ask you to confirm your account reference, this is your work email address.

By text message (if using a mobile phone) – send a text message from your registered mobile number to **61600** with the word PARK and the location number required. If you are not in your default vehicle you can add the vehicle registration number on the end.

Examples:
*PARK BN90367 2hours (*this will park your default vehicle for 2 hours in Royal Avenue)

*PARK BN90127 2hours A123BCD (*this will park a different vehicle than your default for 2 hours in Henrietta Street

For assistance - Call **MiPermit 0333 123 8008** and we will set up your stay for you (between 8am and 8pm Monday to Friday, 8am to 4pm Saturday).

Texts to 61600 will be charged at your network providers standard rate. Calls to 0333 numbers cost no more than a national rate call and are inclusive in your mobile minutes.
