

OLDFIELD SCHOOL TO NEWBRIDGE HILL

Wayfinding will be introduced across scheme.

- 1

The existing pedestrian crossing by Oldfield School will be changed to a new Toucan crossing that can be used by those walking, wheeling and cycling.
- 2

On Kelston Road new segregated cycle tracks are proposed on both sides of the road.
- 3

Existing speed limit is proposed to be reduced from 30mph to 20 mph as cyclists share space with traffic.
- 4

Widened footway.
- 5

Departure from design standards required here due to narrow highway.
- 6

Raised tables are proposed improve pedestrian crossing facilities.
- 7

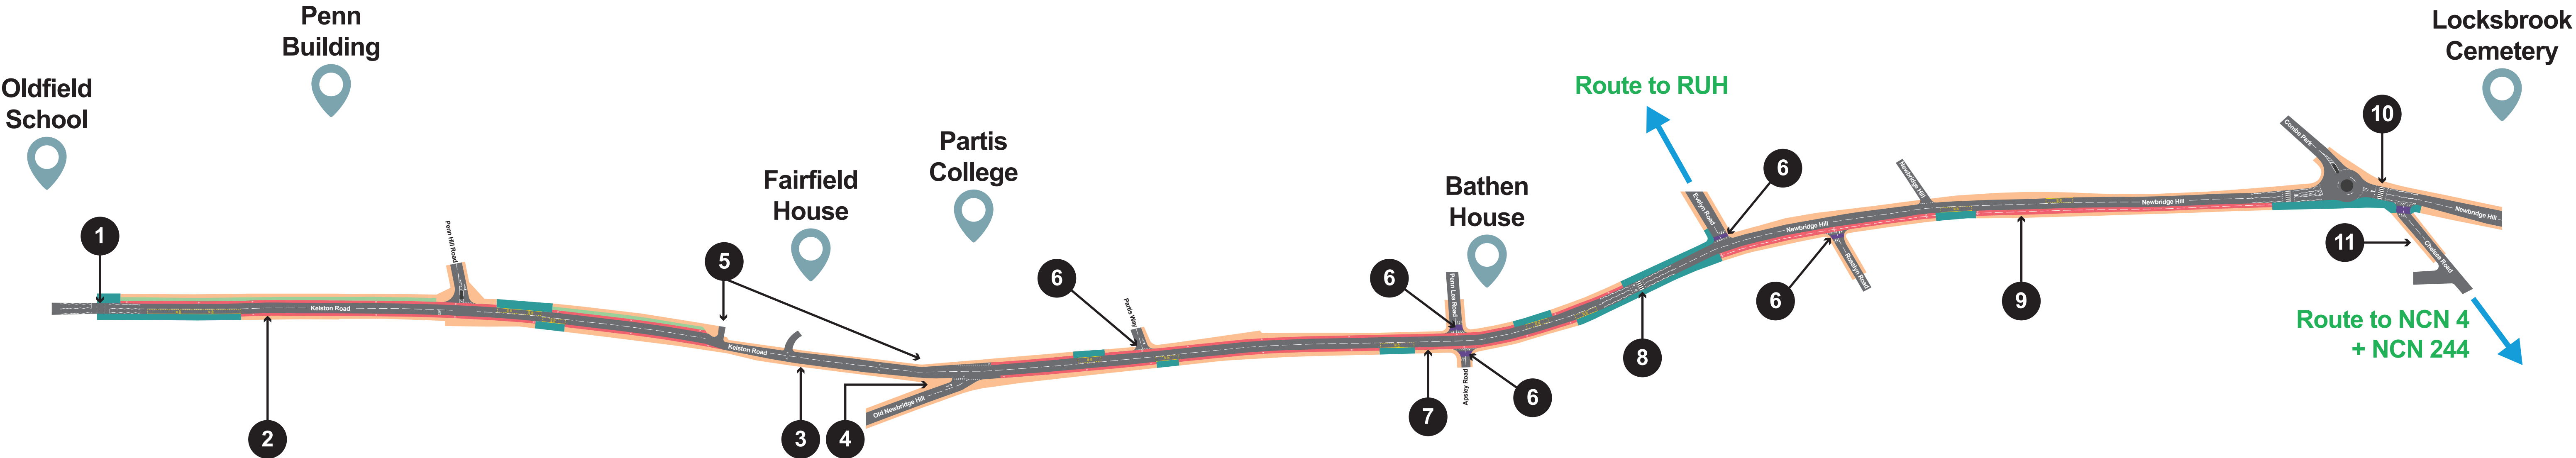

Between Old Newbridge Hill and Evelyn Road new segregated cycle tracks are proposed on both sides of the road.
- 8

The existing zebra crossing would be converted to a parallel crossing - which is a dual-purpose crossing where cyclists are separated from pedestrians.
- 9

A new two-way segregated cycle track east to west from Evelyn Road to Chelsea Road.
- 10

New zebra crossing.
- 11

Chelsea Road Liveable Neighbourhood will be considered jointly with this project.

Key			
Existing pavement	Proposed shared use path	Cycle track	Islands
Grass verge	Continuous footway/cycleway	Carriageway	

Plans show indicative proposals only and are subject to change following design development.
