(vi) The following schedule is inserted as Schedule 9, Part A to this Order:

Emission-based Parking Charge for Paid for Parking Places valid from 6th January 2025 to 4th January 2026

(1) Where the parking charge specified in columns 2 to 7 of Schedule 1, Part B, is a range between the lowest and highest charge for the period of parking the parking charge for a

vehicle is calculated using the Tier specified in column 8 of Schedule 1, Part B, for that location and the vehicle's emissions as set out in columns 2 and 3 within tables 1 and 2 below.

- (2) A vehicle's CO₂ data as recorded by the DVLA will be used to calculate the exact parking charge. Where this data is missing or null in the case of a non-electric powered vehicle the engine capacity data as recorded by the DVLA will be used to calculate the exact parking charge.
- (3) Where CO₂ data and engine capacity data is not recorded by the DVLA or the DVLA have no record of the vehicle then the parking charge for the period of parking will be the highest emission-based parking charge for the specified period of parking as set out in column 3 of this schedule for the Tier specified in column 8 of Schedule 1, Part B.

And

(vii) The following schedule is inserted as Schedule 9, Part B to this Order:

Emission-based Parking Charge for Paid for Parking Places valid from 5th January 2026

- (1) Where the parking charge specified in columns 2 to 7 of Schedule 1, Part C, is a range between the lowest and highest charge for the period of parking the parking charge for a vehicle is calculated using the Tier specified in column 8 of Schedule 1, Part C, for that

location and the vehicle's emissions as set out in columns 2 and 3 within tables 1 and 2 below.

- (2) A vehicle's CO₂ data as recorded by the DVLA will be used to calculate the exact parking charge. Where this data is missing or null in the case of a non-electric powered vehicle the engine capacity data as recorded by the DVLA will be used to calculate the exact parking charge.
- (3) Where CO₂ data and engine capacity data is not recorded by the DVLA or the DVLA have no record of the vehicle then the parking charge for the period of parking will be the highest emission-based parking charge for the specified period of parking as set out in column 3 of this schedule for the Tier specified in column 8 of Schedule 1, Part C.
