

Proposed Road Humps Statement of Reasons

Bath and North East Somerset Council

(26-043a) (Shakespeare Avenue, Bruton Avenue, Hayes Place and Bloomfield

Avenue, Bath) (Raised Table Speed Humps) 2026

STATEMENT OF REASONS

Proposal

To introduce raised table speed humps on Shakespeare Avenue, Bruton Avenue, Hayes Place and Bloomfield Avenue at their junctions with A367 Wellsway.

Reasons

Funding has been secured to install a Raised Table Speed Hump on Shakespeare Avenue, Bruton Avenue, Hayes Place and Bloomfield Avenue as part of a wider scheme to improve walking and public transport facilities on Bear Flat. -

It is considered that the proposed raised table speed humps would improve pedestrians' ability and safety to cross the side roads and help to reduce vehicle speeds at the junctions.

The Council has considered article 8 within Schedule 1 to the Human Rights Act (Right to respect for private and family life, home and correspondence) and Protocol 1 Article 1 (Peaceful enjoyment of possessions). Both of these rights are qualified rights, and the Council does not consider that the measures proposed under the TRO amount to a deprivation of possessions as the right to access property has not been extinguished. The proposals are considered to have a minimal impact on human rights. However, the Council is entitled to affect these rights where it is in accordance with the law, necessary (such as in the interests of public safety or economic well-being, to prevent disorder and crime, to protect health, or to protect the rights and freedoms of others), in pursuit of a legitimate aim and proportionate to do so. The proposals within this report are considered to be in accordance with the law, necessary, in pursuit of a legitimate aim and proportionate.

The Council has had due regard to the needs set out in section 149(1) of the Equality Act 2010. It considers that the proposal is consistent with the section 149 public sector equality duty, which it has discharged.

Highways Act 1980

This proposal is made in accordance with The Highways Act 1980 Section 90A which permits a highway authority to both construct and remove road humps in a public road, for which they are the highway authority, if the highway is subject to a legal speed limit for motor vehicles of 30 miles per hour or less or the road humps are specially authorised by the Secretary of State.

Road Traffic Regulation Act 1984

This proposal is made in accordance with the Road Traffic Regulation Act 1984, which under Section 23 enables local highway authorities to establish crossings for pedestrians.

In making this proposal the Council has discharged its duty under section 122 of the Road Traffic Regulation Act 1984.

The Council is under a duty pursuant to section 122(1) of the Road Traffic Regulation Act 1984 (as amended) to exercise its duties under the Act (so far as practicable having regard to the subsection (2) matters), to secure the expeditious, convenient and safe movement of vehicular and other traffic (including pedestrians).

As for the subsection 122(2) matters:

- a) the desirability of securing and maintaining reasonable access to premises.

Comment: Installing the raised table speed hump in the proposed location would not cause any issues in relation to access to premises.

- b) the effect on the amenities of any locality affected and (without prejudice to the generality of this paragraph) the importance of regulating and restricting the use of roads by heavy commercial vehicles, so as to preserve or improve the amenities of the areas through which the roads run.

Comment: Improvements for pedestrians and reduced vehicles speeds would have a positive impact on access to local amenities, and the ambience / amenity of the street for pedestrians.

- bb) The strategy prepared under section 80 of the Environment Act 1995 (national air quality strategy)

Comment: The scheme is expected to have a neutral impact on air quality.

- c) the importance of facilitating the passage of public service vehicles and of securing the safety and convenience of persons using or desiring to use such vehicles.

Comment: The proposed scheme as whole will improve the quality of public transport journeys. The proposed raised table speed humps will improve pedestrian safety and access to the bus stops.

- d) Any other matters appearing to the local authority to be relevant.

Comment: N/A

Having balanced the various matters and considerations, the Council has concluded that it is appropriate to progress the proposed Order.

The Council has also discharged its duty under section 16 of the Traffic Management Act 2004. It has concluded that the proposed Order is consistent with that duty, given its other policies and objectives.

Neither section 16 nor section 122 of the 1984 Act precludes the making of the proposed Order.
