4. **REASON**

Please refer to the Statement of Reasons.

The Council has had in mind and discharged the duty (as set out in section 122(1) of the Road Traffic Regulation Act 1984) to secure the expeditious, convenient and safe movement of vehicular and other traffic (including pedestrians) so far as practicable. It has also had regard to the factors which point in favour of imposing a 20mph & 30mph Speed Limits. It has balanced the various considerations and concluded that it is appropriate to promote 20mph & 30mph Speed limits. The Council has also considered and discharged its network management duty under section 16 of the Traffic Management Act 2004. It has concluded that the proposed 20mph and 30mph Speed Limits are consistent with that duty, having regard to its other policies and objectives.

5. **IMPACT ON EQUALITIES**

An Equality Impact Assessment has been undertaken in relation to speed limits, which is available upon request. The Council has had due regard to the needs set out in section 149(1) of the Equality Act 2010. It considers that the proposed Order is consistent with the section 149 public sector equality duty, which it has discharged.

The proposals are considered to have a minimal impact on human rights (such as the right to respect for private and family life and the right to peaceful enjoyment of property). However, the Council is entitled to affect these rights where it is in accordance with the law, necessary (in the interests of public safety or economic well-being, to prevent disorder and crime, to protect health, or to protect the rights and freedoms of others), in pursuit of a legitimate aim and proportionate to do so. The proposal(s) within this report are considered to be in accordance with the law, necessary, in pursuit of a legitimate aim and proportionate.

11. DECISION

As the Officer holding the above delegation, I have decided that the Traffic Regulation Order as advertised be sealed.

The Council's policy framework has been used as the basis to develop the scheme with full engagement with stakeholders across the area.

I further note that the issue of deciding whether to implement any scheme is a matter of broad judgement, taking into account the wider transport and climate aims of the Council rather than a purely mathematical analysis on the numbers of positive or negative responses.

The arguments both for and against the scheme were clearly identified and were considered fully as part of the decision-making process before I made the final decision as set out above.
