Children's Social Care Domestic Violence and Abuse Service

I feel scared when mummy & daddy argue

How can I keep the Children safe?

How can I make it Stop?

What if someone gets Really hurt?

New Way is a Service to help parents (and potential parents) understand that shouting, violence and other abusive behaviours, will have a negative impact on you and your children.

We will support you to;

- Understand the impact this has on your children
- Learn about why you feel angry or upset
- Reduce arguments
- Communicate in a positive way
- Learn about what is controlling behaviour
- Achieve a healthier happier relationship

We would be happy to talk with you if you require more information, please contact:
