Green Grow the Interns

How UWE's Green Internships can help your business to grow

UWE BRISTOL University of the West of England

FOR GOLD

Context

Largest supplier of high skills labour to the region (source HESA)

Circa 5000 graduates per annum – 96% employed within 6 months of graduation

Circa 600 students on sandwich placement per annum

Circa 200 subsidised internships per annum – additional funding support in partnership with Santander Universities

Circa 1500 internships over 5 years with at least 800 small and medium sized businesses

How can a UWE student benefit your business

- Flexible way to recruit – temporary but long term trial of a member of staff,
- New ideas, application of up to date thinking from research/academia
- Up to date knowledge of technology, social media etc.
- Low cost, low risk, high production
- Great development opportunities for your staff
- Opportunity to diversify workforce
- Raising the profile of your organisation amongst a large group of individuals
- Access to overseas students who can support you to expand into overseas markets

Some Feedback

“The two interns have performed so well over their two month internship that we have offered them permanent positions, and they have accepted...”

Mike Ralson, Managing Director, [Solsoft](#)

“I think the scheme is an excellent opportunity for both interns and businesses ... Ben has impressed me very much and when the right circumstances arise - either through the film we've been working on or commercial work via Aardman or elsewhere - I'll certainly employ him again.” **Sam Morrison, Evil Genius Ltd**

“Very valuable scheme - and well managed - many thanks.” **Ben Lane, [Ecolane Ltd](#)**

“The service from the Employer Partnership Service team has been absolutely brilliant – we just put up an advert through the help of the team and had a bright person within a week. The service was quick and effective. I have already recommended the scheme to others – the whole thing has been a complete breath of fresh air...” **Dr Jane Guise, Bath and West Society**

“The FSB was delighted that the Graduate internship scheme has been adopted as it is an excellent opportunity for small businesses to see for themselves the benefit of including a graduate on their staff... we are pleased that Employer Partnership Service team has embraced the scheme so wholeheartedly.” **Vivienne Rayner MBE (South West Policy Manager, Federation of Small Businesses)**

“This is a very good scheme. Our intern fitted in very well and learned a lot. He was helping with research, came up with good ideas and had good IT skills. We would take on another intern in the future”. **Jon Walker, MD 1 World Solar**
