

Tell us which project you think should receive funding:							
	Cleveland Pools - Interpretation	Voices	Cleveland Pools - Kiosk canopy	Percy Centre - MUGA	Komedia	Reason details	Do you have any links to the organisation applying?
1	X		X	X		These are all projects that are very much community based involving all ages. The end result of these projects will enhance facilities for participants to have exercise which will improve health and wellbeing. All city based physical activities should be encouraged to reduce obesity and improve health both mental and physical.	No
2		X	X			Cleveland pools important local project needs additional support. Provides local people with opportunities for exercise & fitness. Voices - women & children must be protected when in danger from domestic violence.	No
3	X	X				Cleveland pools is an important project which has involved many local groups and residents. It is particularly important for local residents to know more about its history. It is equally important to offer support for women who have experienced domestic violence and this project should also receive funding.	No
4		X				A much needed resource to help women and girls feel safer. An issue that has had greater public awareness and finally a new law but traditionally under resourced despite its prevalence. Now is a perfect time to promote and provide greater support	No
5		X				There is a clear and obvious need for this proposal. The problems it aims to tackle are not being adequately addressed by existing agencies.	No
6	X					It's a facility which can be enjoyed by all; swimmers or not unlike the disaster which will be the Entry Hill Mountain Bike Park. It is a beautiful, historic building which should be treasured not left to crumble to run	No
7		X				This is an excellent organisation tackling major issue mainly for women and their children and the families that support them. Domestic violence isn't going away and can impact any family whatever wealth or status. It's hidden. This project will make a big difference	No
8	X		X				Yes
9		X	X				No
10		X				This is a specific area of need that profoundly impacts the citizens of the future.	No
11		X		X		Both very valuable resources for vulnerable people, standing out from the other choices which will only benefit those who can afford to use them	No
12		X		X		Voices: A safe space for victims of domestic violence is essential. Percy: The more places that people can get out and take exercise the better.	No
13		X		X		Because there are problems in Bath and the divide between the troubled and the reasonably well off is very marked. It's a bad feeling walking around the streets. Those two projects are the only ones that will not just benefit those who are comfortably off	No
14		X		X		Because the Cleveland Pools should NOT get any more Council money. Both Voices and Percy Centre are MUCH MORE worthy causes providing services for people who actually need them (unlike the Cleveland Pools which has been badly managed and is not needed).	No

15		X		X	X	They are all worthy projects that desperately need our support - enhancing community engagement and protecting victims of domestic violence. The Cleveland Pools project has already had enough public funding and will not be to the benefit of the community as a whole	No
16	X					It's so important to recreate that sense of community we used to have at Cleveland Pools, and their efforts to share past stories and encourage people to make new ones should be rewarded. Their project has engaged with so many local people and organisations that it will (and already has) clearly deliver benefit for the wider Bath community. Great to see how volunteers have achieved success, and been valued by the British Museum - I'm sure the quality will be excellent.	Yes
17		X		X	X	With regard to the Cleveland Pools Project, I take exception to the blatant lies in relation to evidence that the community has been listened to - we (Cleveland Pools immediate Neighbours) have never been 'thrilled' by the prospect of an outside seating area. We have also not been involved in monthly meetings - we have been asking for them for years now - we might get 2 a year if we're lucky, and then it's only to tell us what they're doing - there is no community engagement	No
18		X		X		I am an immediate neighbour of the Cleveland pools and they do NOT have monthly meetings with us and do NOT consult with us unless we push for it, no part of the Cleveland pools deserve this funding, they have been given a huge amount of money so far, they are being greedy, I can't believe that they have put in for 2! The two projects that I have chosen are far more deserving and for a good cause that will benefit people in need. PLEASE DO NOT GIVE ANY MORE MONEY TO THE CLEVELAND POOLS	No
19	X		X			Because they are an important resource for the community, helping interpret their history and environment and giving protection during very hot weather.	No
20				X	X	They will be used by a range of people who will benefit from the activities	No
21		X				I would like to see a safe space for women to receive help and support	No
22	X					Part of the history of Bath & will give something that lasts for a long time. It is good for both residents and those that come to Bath as visitors.	No
23	X		X			So much volunteer effort having been put in, this would help 'round it off' and creat a unique facility that Bath can be proud of.	No
24		X		X		Voices provides a safe environment for the growing number of people of all ages suffering domestic abuse/violence. Unfortunately, it is the case that we need to be able to help those people who often have nowhere else to go and no idea what to do. The Percy Centre is ideally placed to provide facilities for young and older people to meet up in their community for exercise and local events. It is not a gym. It offers people an informal environment to enjoy getting together in their area.	No
25		X				All these projects are very important, and I am hoping the renovation projects will manage to somehow go ahead with different funding, but Voices is particularly important as we are talking about lives and people who need help to be able to start again a (more) normal life with no fear	No
26		X				Definitely a need for this project. It would be money well spent.	No

29		X		X		Of the five proposals, Voices and Percy Centre would truly benefit the local community. By comparison Komedia is a commercial organisation and hence it would be very hard to support a CIL grant to them as it would for Cleveland Pools who have received as vast amount of funding from Lottery Fund etc. already and current request is for less essential work. Hence please consider funding for Voices and Percy Centre would both provide much more valuable services for the community. Thank you.	No
27		X					No
28				X		It is a good thing to provide any form of sporting facility that can .be used by all ages	No
30		X	X	X	X	I think they all provide important improvements to facilities and resources for Bath locals, especially given the increase need to have respite from today's pressures due to the pandemic, cost of living increases and the Russia invasion of the Ukraine.	Yes
31		X				There are insufficient facilities in our area to support vulnerable women & girls at risk. Facilities such as this are important & urgently needed.	No
32			X	X			No
33			X		X	Buildings are important in the history of Bath and the organisations running them are working hard on projects that will provide benefit to diverse sectors of the community. They have raised a lot of money themselves and deserve any help that is available.	Yes
34		X				Having a recovery focus safe space for women and girls how have experienced domestic or sexual abuse is so vital and needed. Funding is out into prevention and emergency care in this situations but support needs to be provided after to help woman with therapy/support if needed and their mental and physical health and if needed rebuild part of their lifes and find a community that can support them moving forward. I feel this project can offer that support.	No
35		X		X			No
36							No
37		X			X		No
38		X				Out of all this options, this one is the one that has the most direct and immediate impact on someone's life and wellbeing.	No
39		X				More services for women facing domestic abuse are needed. Waiting lists at Southside are long which means women waiting for therapy or to speak with someone take way too long. Not enough support for women in Bath. Local Bath mums fb page is proof of that as so many women looking for support. Many women I know do not get much support and children suffer as women have nowhere to go in Bath to seek help, waiting lists and not professional enough services in Bath.	No
40		X				As someone who has personally used voices and continues to use, after fleeing to Bath 18 months ago. I know from first hand how important this service is and how amazing the staff are to.	No
41		X				Survivors of intimate partner violence have often been let down by the formal services that should be there to protect and support them. It falls to voluntary agencies to protect survivors from all forms of abuse and support them into a safer life. These agencies desperately need support to enable them to resource the many interventions they have developed.	No

42		X		X		They are both good projects that should be funded. On the other hand the Cleveland Pools has had huge amounts of money already and lie about their relationship with the CPIN immediate neighbours group. They have no thought for us at all and treat us like the box ticking exercise they clearly think we are. We can see there is wide support for the Pools Trust in this council, but the TRUTH is there is little if any support for them or this project in the local community.	No
43		X		X		The Percy centre is a great resource and as a parent of a young child we have used it a lot over the past 2 years and the outside space would be a huge benefit for so many communities in Bath. The centre for voices is also critical and there is so little provision for this in the area it seems to be the most critically important funding. I also think the Cleveland pools will be able to secure other funding because of the nature of the project so isn't in as great a need (although a great project	No
44		X					No
45		X				I feel strongly that creating safe spaces for women and girls experiencing violence is extremely important. A number of the other projects are a nice to have - this is a need to have. It will have a real and lasting impact on the lives of many people who need it.	No
46	X		X		X		No
47		X			X	Voices - this is such an important organisation, their work is badly needed; a small group that tackles a big issue, city-wide. Komedia - the 2020-2021 Covid-19 period has been really difficult for music venues; it's important to support their plans to improve the venue and recover the level of business they had pre-covid.	No
48	X			X		The Cleveland Pools Interpretation project needs this funding to fully explain the history of the site and its relevance to Bath's residents young and old. The Percy Centre court refurbishment fully deserves a resurfacing makeover. There are very few places for inner city kids to exercise safely in this deprived Ward.	Yes
49		X		X			No
50		X		X		Rather than an update or an addition VOICES is a necessary service which seeks to help others. The Percy courtyard, although an update, is also something that will help other people. The other 3 projects seem like 'nice to have' projects rather than something that will make a difference to people's lives.	No
51		X				Valuable project supporting some of the most vulnerable in our community	No
52	X					Supports an excellent new historical development for Bath.	No
53	X	X	X	X		These projects are not necessarily commercially viable but do enrich the life of Bath residents	No
54	X		X			This is a very exciting project and great addition to the Bath area. Really looking forward to using the pool on a regular basis	No
55	X	X	X	X	X		Yes
56	X		X		X	A lido in Bath will be a huge asset. Komedia is of great value as a venue in the city centre.	No
57				X		A very important sport and social facility in the very centre of the city	No
58	X	X	X			Cleveland Pool is a wonderful project celebrating history in Bath and fun outdoor healthy activity. Voices vision to provide a safe space for victims of violence is crucial to helping those in need	No
59		X	X	X		These projects all help the community and Voices and Percy help those in need. The canopy will help bring the historic baths back to full use.	No

60		X		X	X	VOICES - to improve support for survivors of violence and abuse Komedra - to ensure current and future generations can enjoy the cultural experiences provided at this venue Percy Centre - to provide a valuable resource for disadvantaged children in the city, encouraging improved physical and mental health	No
61	X					Restoring an historic facility for future generations is a great use of public funds	Yes
62				X		They're making a tangible difference in a social enterprise that will improve the quality of life for the people of Bath! I'm part of the Cleveland pools project, so I feel like I can't vote for that, but this actually seems like a brilliant use of council funding.	No
63		X					No
66		X		X		Voices and Percy are accessible to those with higher needs and therefore funding these two offers a move toward equality in BANES. I am not sure (although a very keen outdoor swimmer and very keen to come to Cleveland pools) that the Cleveland and Komedra will be as accessible to those with financial, care and support needs. I am more keen for there to be equal access to facilities and increase opportunities for everyone to access what they need and want to improve their health and wellbeing.	No
64			X				No
65	X		X	X			No
67	X		X		X		No
68			X		X		No
69	X		X			I'd like to voice my support for either of the Cleveland Pools projects to receive funding. The work that has been done to re-establish such an historic site has been inspiring. As a Bath resident it feels like this project will benefit the locals greatly and is something of which to be proud.	No
70		X				I have looked at the projects for the CIL funding and I would urge you to concentrate on Voices (VAWG) as Violence against Women & Girls is on the increase so any funding is vital. I am a member of Soroptimist International of Bath & District and we aim to improve the lives of women and girls Worldwide and where better to start than locally.	No
