

- The road closures in Lower Borough Walls will be strictly enforced this year so no vehicles will be allowed in during the period that the market is open.
- The closure is expected to be implemented by 9:30 am each morning so can you please ensure that you have vacated the area by that time.
- Please note there will be no access via Lower Borough Walls until the official closing times of the market.

Finally I have also reached an agreement with Visit Bath Ltd (VBL) that full time Street Traders in Union Street and Stall Street and can leave their Gazebos in place overnight during the Market Period as VBL will have overnight security in place.

Unfortunately it will not be possible to leave your stock in place as your Pitches are open to the elements and we cannot guarantee the security. This will be a matter for you to decide but please let me know in advance so that I can inform VBL.

What we are trying to avoid is traders having to remove all equipment whilst the Market trading is taking place around you.

This will also mean that some traders who

do not operate full time will have to consider what to do as I don't want empty Gazebo left in place during the days you do not trade. Please ring me to discuss if this affects you.

## **Street Traders in Terrace Walk**

As for previous years these will be relocated from existing pitches because of the facilities put on the island. The traders affected have been notified of alternative arrangements.

## **Post - Christmas Market**

The Carousel is returning to Stall Street after the market structures have been removed and will remain in place until 30<sup>th</sup> December.

If you have any concerns or queries please feel free to contact me on 01225 396719 or email me on [licensing@bathnes.gov.uk](mailto:licensing@bathnes.gov.uk)

## **Finally**

If there are any issues you wish to discuss please feel free to contact me on 01225 396719 or via [ian\\_nash@bathnes.gov.uk](mailto:ian_nash@bathnes.gov.uk)
